OBJECTS

I am looking for an entry-level Software Engineer role where I can apply my hands-on experience in full-stack development. I've worked with React, Next.js, Python, and Django, building web applications from frontend to backend. I'm eager to grow in a dynamic team while contributing to meaningful projects.

PROFESSIONAL EXPERIENCE

MetaGeeks Technology Pvt Ltd : november 2024-may 2025
full stack intern
Worked on diverse web projects including e-commerce, blogs, and travel websites. Experienced in the MERN stack and Next.js, handling end-to-end development—frontend, backend, databases, and deployment. Focused on bug fixing, feature implementation, and performance improvements.

Startek Pvt Ltd : april 2024-september 2024
senior excutive
I have experience working on the ICICI Bank process, including application support, client management, and resolving customer queries related to various banking issues.

Softmind Pvt.Ltd : October 2023 - January 2024
React.js Developer(Internship)
Learned core React concepts, including hooks for state and effect management. Applied skills on an e-commerce project by implementing features and performing CRUD operations for product and user data.

Inventia Technology Pvt Ltd : july 2022 - january 2023
Data Engineer(python Developer Trainee)
Gained hands-on experience with Python libraries (Pandas, NumPy, Seaborn, Matplotlib) and the Django framework. Worked on image annotation, data collection, and CSV data processing. Developed a foundation in machine learning and used tools like COCO annotation, LabelImg, Roboflow, and Google Colab for model training and data labeling.

Cetpa InfoTech Pvt Ltd.(Internship) : January 2022 - july 2022
Full Stack Developer(Python with Django)
I did learn the fundamentals of Python. I did learn the Django framework. I did perform CRUD operations in Django. I did create APIs in Django. I did work with REST APIs in Django. I did work with databases such as SQLite, MySQL, SQL, and MongoDB.
